

Requirement Gathering

Date :

Project Overview:

SAHAYI is a web-based microfinance and governance platform designed to digitize the day-to-day operations of Kudumbashree Ayalkoottams. The system replaces traditional paper-based record keeping with a secure digital platform that manages member registration, committee management, weekly meetings, attendance, thrift savings, loan applications, loan approvals, repayment tracking, and financial reporting.

The platform follows the actual Kudumbashree organizational workflow, where a **CDS Authorized User** registers newly formed Ayalkoottams, creates committee members and user accounts, and enables members to access the system using secure login credentials. The proposed solution aims to improve transparency, reduce manual errors, simplify financial management, and provide a scalable foundation for future mobile and AI-based extensions.

The main objectives of the project are:

- Digitize Ayalkoottam operations.
- Reduce paperwork and manual calculations.
- Improve transparency in financial management.
- Simplify loan management.
- Generate digital reports.
- Provide secure role-based access.
- Lay the foundation for mobile and AI integration.

System Scope:

The proposed system is developed as a prototype web application for academic and research purposes. It demonstrates the complete workflow involved in managing Kudumbashree Ayalkoottams digitally.

The scope of the project includes:

- Registration of newly formed Ayalkoottams
- Committee management
- Member management
- Weekly meeting management
- Attendance management
- Weekly thrift savings
- Loan application and approval
- Loan repayment tracking
- Financial reporting
- Role-based authentication
- Dashboard and analytics

Target Audience:

1. CDS Authorized User

Responsible for registering and managing Ayalkoottams under the CDS.

2. President

Supervises the overall activities of the Ayalkoottam and monitors reports and financial activities

3. Secretary

Responsible for member registration, meetings, attendance, savings entry, and loan processing.

4. Treasurer

Responsible for financial transactions, savings collection, loan disbursement, repayment, and maintaining financial records.

5. Member

Uses the system to view savings, attendance, loan details, notifications, and apply for loans.

Modules:

1. Authentication & User Management

Functionality

- Login
- Logout
- JWT Authentication
- Role-Based Access
- Password Management
- Profile Management

2. Ayalkoottam Registration Module

Functionality

- Register New Ayalkoottam
- Assign Panchayat
- Assign Ward
- Assign ADS/CDS
- Committee Creation
- Generate Login Credentials

3. Member Management Module

Functionality

- Register Members
- Update Member Details
- Member Search
- Member Status Management
- Digital Member Profile

4. Meeting Management Module

Functionality

- Schedule Meetings
- Record Meeting Minutes
- Attendance Management
- Meeting Reports

5. Savings Management Module

Functionality

- Weekly Savings Entry
- Savings History
- Digital Passbook
- Savings Reports

6. Loan Management Module

Functionality

- Loan Application
- Loan Approval
- Loan Disbursement
- Repayment Tracking
- EMI Calculation
- Loan Reports

7. Reports & Analytics Module

Functionality

- Member Reports
- Savings Reports
- Loan Reports
- Attendance Reports
- Financial Dashboard
- Export PDF
- Export Excel

8. Notification Module

Functionality

- Meeting Reminder
- Loan Reminder
- Savings Reminder
- Email Notifications
- In-App Notifications

User Roles:

1. CDS Authorized User

Responsibilities

- Register new Ayalkoottams
- Add committee members
- Register members
- Generate login credentials
- View all Ayalkoottams
- Reset passwords
- Generate reports
- Monitor activities

2. President

Responsibilities

- View dashboard
- View members
- View savings reports
- Monitor meetings
- Monitor loans
- View financial reports
- Apply for personal loan
- View own savings

3. Secretary

Responsibilities

- Register members
- Manage meetings
- Record attendance
- Record weekly savings
- Review loan applications
- Generate reports
- View personal savings
- Apply for personal loan

4. Treasurer

Responsibilities

- Record savings
- Maintain financial ledger
- Disburse loans
- Record repayments
- Generate receipts
- Generate financial reports
- Apply for personal loan

5. Member

Responsibilities

- View profile
- View attendance
- View savings
- Download passbook
- Apply for loan
- View loan status
- View repayment schedule
- Receive notifications

System Ownership:

1. Academic Institution Ownership

If SAHAYI is developed as part of an MCA mini and major project, the ownership belongs to the academic institution under the guidance of the project supervisor.

2. Organizational Ownership

If the system is developed for an authorized e-waste recycling company, government agency, municipality, or environmental organization, the ownership belongs to that respective organization.

3. Individual Ownership

If EcoCycle is developed as an independent startup idea or personal venture, the ownership belongs to the individual developer (or the registered business entity, if incorporated).

Industry / Domain

- FinTech
- Digital Microfinance
- Community Governance
- Self-Help Group (SHG) Management
- Rural Digital Transformation

Data Collection Contacts:

Name: Bindhu Radhakrishnan

Role : Sreedurga(Ayalkootam)

Phone : 80758 59617

Questionnaire for Data Collection:

1. What is your role in the Ayalkoottam?
2. How are member records currently maintained in your Ayalkoottam?
3. How are weekly savings recorded and managed?
4. How is attendance recorded during weekly meetings?
5. How are loan applications currently submitted and approved?

6. What challenges do you face while maintaining member, savings, and loan records?
7. Have you experienced calculation errors while maintaining savings or loan records?
8. How are meeting minutes and decisions currently recorded?
9. Would a digital system for managing members, meetings, savings, and loans make your work easier?
10. Which features would you like to have in a digital Ayalkoottam management system?
11. How would you prefer to receive meeting or payment reminders?
12. Do you regularly use a smartphone and have access to the internet?
13. Would a digital passbook showing savings, loans, and repayment history be useful?
14. Would you prefer online reports instead of manually prepared registers?
15. What additional suggestions do you have to improve the management of your Ayalkoottam?
